INTRODUCTION

The Commission of the African Union is committed to support the use and development of science in Africa and has initiated with its key development partners the African Union Scientific Award Programme. In July 2010, the African Union Heads of State and Government took a decision to rename this Programme as “**African Union Kwame Nkrumah Scientific Awards**”. This decision reflects and underscores a success story and the critical role of science and technology in the development and integration of Africa. Under this programme the Regional Economic Communities in partnership with the AU Commission (see Rules of Procedure) implement the **Regional Scientific Awards for Women in the five Regions of Africa**.
