II. OPENING SESSION

7. Delivering his opening address, Mr. Bacary Koné, Minister of Economy and Finance of the Republic of Mali and Chairman of the Council of Ministers, on behalf of His Excellency, Alpha Oumar Konare, President of the Republic of Mali, and the government and people of Mali, welcomed the Honourable Ministers and their delegations to Bamako. The Minister noted that, unlike in the past, Member States had started demonstrating the much-needed political will, particularly in the wake of the ECOWAS/UEMOA ministerial meetings held in Bamako in January 2000. This had resulted in an acceleration in the integration process, as witnessed, among other things, by the establishment of an ECOWAS free trade zone, the decision to create a second monetary zone in ECOWAS by the year 2003, and the establishment of the remaining Community institutions. Mr. Bacary Kone noted that the establishment of the Community Parliament and the Court of Justice, centrepieces of the ECOWAS institutions, will not only enable the Community to act on the strong desire of our people to live in an ECOWAS where democracy, rule of law, peace and collective security reign, but also to protect the overall interests of the toiling masses.
8. The Minister noted that peace and security are indispensable to development and regional integration. On behalf of the government and people of Mali, he therefore urged all warring parties to lay down their arms so that peace would once again reign in our region.
9. Referring to the items on the agenda, the Minister stressed the importance of the memorandum on the status of the harmonisation of ECOWAS and UEMOA programmes. He expressed satisfaction at the progress achieved in the harmonisation of the programmes of the two organisations, particularly in the areas of the common market, the convergence of macro-economic policies, and the definition and implementation of sectoral policies.
10. Concluding, the Minister expressed the hope that the twenty-fourth session of the Authority of Heads of State and Government to be held in Bamako would

take decisions that would give a new lease of life to our organisation, with a view to enabling it realise its objectives within the fixed time frame.

Item 4: Presentation and consideration of the report of the Executive
Secretary

13. The Executive Secretary, Mr. Lansana Kouyate, presented the year 2000 annual report entitled "Regional integration to ensure West African development in the new millennium". The report highlighted the poor economic results recorded in the region in 1999, noting that there was a general downturn in economic activity within ECOWAS, despite the favourable trend observed in

eight (8) of the countries. On the average, real GDP fell, going from 3.2% in 1998 to 2.7% in 1999. The declining economic growth rate in Côte d'Ivoire and Nigeria, both of which represent 66% of the region's GDP, and the civil conflicts in some of the countries, are some of the factors responsible for the fall in economic growth in the region. The report stressed, however, that the prospects for growth were quite bright because the Nigerian economy was expected to perform better and also because of the economic reforms going on in most of the other countries.

14. Under the chapter on the implementation of the Community work programme, the Executive Secretary reviewed the progress achieved since the last session of Council in Lomé, in December 1999. He reviewed the status of implementation of the decisions and the directives of the session of the Authority of Heads of State and Government which took place in Lomé on 9 December 1999 as well as the directives issued by the ECOWAS/UEMOA ministerial meetings held in Bamako on 28 and 29 January 2000 on the acceleration of the regional integration process. The Executive Secretary went over the actions that had been taken to harmonise the ECOWAS/UEMOA integration programmes, and the progress made toward the establishment of the second ECOWAS monetary zone and the creation of a borderless West Africa.
15. The Executive Secretary also touched on other socio-economic programmes being implemented by ECOWAS, particularly the introduction of an ECOWAS passport and the implementation of sectoral programmes in the areas of transport, telecommunications, energy, the environment, education, health, and information. He also informed the Council of Ministers of the selection of candidates for the statutory posts and recalled the particularly difficult financial situation of the Executive Secretariat. He urged all the Member States which were yet to do so, to pay up their arrears of contributions and to implement all the provisions of the Protocol relating to the Community levy.
16. On the issue of regional peace and security, the Executive Secretary briefly reviewed the situation in Côte d'Ivoire, Guinea Bissau, and Sierra Leone, highlighting the tension at the borders between Guinea, Sierra Leone and

Liberia. He also detailed the actions that had been taken to implement the Mechanism on conflict prevention, management and resolution; peacekeeping and security.

17. Under institutional matters, the Executive Secretary reminded Council of the letter from the Islamic Republic of Mauritania notifying him of its decision to withdraw from ECOWAS. He had drawn the attention of Mauritania to the provisions of Article 91 of the revised Treaty setting out conditions for withdrawing from the Community, and, more particularly, the provision that the country should discharge its obligations to the Community.
18. The Executive Secretary also informed Council that fourteen (14) personalities had been shortlisted and recommended to the Authority which will appoint seven (7) of them as judges of the Community Court of Justice. He also announced that the inaugural session of the Community Parliament had taken place in Bamako on 16 October 2000.
19. Recalling the need to strengthen ECOWAS in order to accelerate the development process in West Africa, the Executive Secretary stressed that it was essential to accord priority to the regional approach by ensuring that all Member States effectively implement all Community Protocols and decisions, and by creating an environment conducive to regional integration.
20. The Executive Secretary concluded his report by stressing the need for Member States to make every effort to support the newly-adopted fast-track approach to regional integration in West Africa.
21. Council congratulated the Executive Secretary on the quality of his report. Following discussions on the issues raised therein, Council adopted the report and made the following observations and recommendations:
 - (a) **Economic situation**

- i) Council expressed concern at the region's poor economic performance in 1999 but noted that the medium-term prospects could be brighter, provided that economic reforms are implemented, and ECOWAS Member States have access to the benefits under the Enhanced Highly Indebted Poor Countries Initiative (EHIPC). Council also recognised the importance of peace, security and stability in the region to the promotion of development and integration of West African economies;
- ii) Council took due note of the information provided by the Head of the delegation from Sierra Leone to the effect that the macro-economic situation in her country has improved, due to prospects for greater security in the country.

(b) Implementation of priority Community programmes

- i) Council stressed the need to enhance the capacity of the Executive Secretariat so as to enable it implement the Community priority programmes. To this end, the Executive Secretary should expedite action on the restructuring of the Executive Secretariat;
- ii) In order to accelerate the establishment of a single monetary zone, Council urged the Member States involved in the second monetary zone to redouble their efforts to ensure convergence of their macro-economic policies, with a view to facilitating the merger with the CFA monetary zone in 2004;
- iii) Council called on the ECOWAS Executive Secretary and the Chairman of the UEMOA Commission to pursue their consultations, with a view to harmonising the integration schemes of the two institutions, and to submit the legal texts on the harmonised programmes to their respective decision-making authorities for consideration as soon as possible;
- iv) Council requested the Executive Secretariat to include the implementation of the Protocol on the Community levy on the list of its priorities. It also

requested the Secretariat to undertake technical fact-finding missions to Member States and to present a detailed report at each session of Council on the status of application of the protocol, the problems encountered and the solutions proposed.

Item 5: Consideration of the memorandum on the acceleration of the regional integration process

22. The Executive Secretary presented the memorandum defining modalities for implementing the strategy for accelerating the regional integration process in West Africa, with a view to creating a single economic zone by September 2001. The memorandum recommended that, as a prelude to the signing of the Regional Economic Partnership Agreements (REPA) within the framework of the new ACP/European Union Convention, a customs union should be established as soon as possible, based on the lowest customs tariffs in the region.
23. After discussions, Council requested the Executive Secretariat to draw on the UEMOA experience in establishing a common external tariff, and to undertake without delay studies on the potential impact of the adoption of the tariff on the public finance and economies of all ECOWAS countries. Council also called on development partners, particularly the IMF, the World Bank, and the European Union, to provide the assistance needed to carry out the studies and to bear the costs of any budgetary and economic adjustments that may be necessary. The conclusions of the studies should be submitted to the Trade Commission which will make recommendations to the Council of Ministers.
24. Council requested the Executive Secretariat to explore the possibility of all ECOWAS Member States benefiting from the use of the Solidarity fund established from the balance of proceeds of the Community levy of the seven countries in the ECOWAS borderless zone scheme. This could be used to pay compensation for loss of customs revenue incurred through application of the trade liberalisation scheme.
25. Council discussed extensively the problems hindering free movement of persons and goods in the region. Member States were requested to take appropriate

measures to remove all roadblocks along community highways in their territories.

Council also called on the Executive Secretariat project in order to provide more support to the promoters of the ECOAIR project towards the establishment of the airline.

26. Council requested the Executive Secretariat to urgently convene a meeting of Ministers of Transport and Civil Aviation to consider the practical modalities of implementing the Yamoussoukro Agreement on the liberalisation of traffic rights.
27. With regard to participation by ECOWAS and UEMOA in international meetings, Council requested the decision-making authorities of the two organisations to adopt a common position through a system of permanent consultation so as to be able to speak with one voice at international fora.

Item 6 (f): Consideration of report of the Acting Managing Director of the ECOWAS Fund

28. The Acting Managing Director of ECOWAS Fund presented his report on :
 - Meetings of the Board of Directors
 - Transformation of the Fund
 - Balance sheet of operational activities
29. The Acting Managing Director presented the reports of these meetings which focused on the use of the Community Levy, the Fund's participation in the HIPC initiative, the loans cancellation policy in order to improve upon the Fund's loans portfolio and approved a budget of US\$ 111 811 for the Special Fund for Telecommunications restructuring study.
30. As concerns transformation of the Fund, the Managing Director reported on the deliberations of the Ad Hoc Ministerial Committee which held its 16th meeting on 30 and 31 October, 2000 and its 17th meeting on 10 December, 2000 to consider the progress of the Fund's transformation exercise and the basic legal documents.

31. The balance sheet of operational activities revealed that the project identification activities were undertaken in Ghana and Benin. Six (6) projects were appraised. Two (2) loan agreements were signed with Cape Verde and Guinea. Two (2) project start up missions were also undertaken to Benin and Nigeria. Supervision missions were undertaken in connection with four (4) projects (Benin, Côte d'Ivoire, Mali and Nigeria).
32. As at 30 September 2000, the Fund's portfolio comprised 40 agreements for an amount of UA 80,469,942 as against UA 78,310,942 as at 30 September 1999. Disbursements stood at UA 56,833,689 compared with UA 52,663,118 as at 30 September 1999.
33. With regard to the recovery of loans, out of an amount of UA 61,025,823 which fell due as at 30 September 2000, an amount of UA 55,742,283 was repaid, bringing the loan recovery rate to 91.3%.
34. With regard to co-operation and resource mobilisation activities, a loan agreement in respect of 8 million euros was signed with Crédit Commercial de France while some other activities being undertaken with Citibank, EIB, USAID and some other American banks are in progress.
35. Concerning financial performance, as at 30 September 2000, the rate of income execution stood at 64%, representing an amount of UA 2,280,732 whilst the rate of execution of expenditure stood at 59%, representing an amount of UA 2,065,440. This reflects a surplus of income over expenditure of UA 215,292 during the period as against a budgetary surplus of UA 371 841 as at 30 September 1999.
36. The operating results decreased by 43.09% from UA 223 256 to UA 127 062 between 30 September 1999 and 30 September 2000, partly due to the reduction in certain income items and partly to an increase in operating costs.
37. The cash flow situation of the Fund fell by 5% between 30 September 1999 and 30 September 2000 due to disbursements in respect of loans and the non-

payment of sums owed by some member States. Member States still owe the Fund an amount of UA 13,986,066 in respect of the first and second tranches of called-up capital and UA 3 590 418 in respect of the construction of the headquarters buildings.

38. The Acting Managing Director felt that all in all the Fund=s financial situation had been improving since the beginning of restructuring in 1998, yet it still remained fragile and needed a boost.
39. Finally, the Acting Managing Director expressed his wish that Member States support the efforts by fulfilling their obligations to the Fund in order to improve its image abroad now that the Fund is being transformed into the ECOWAS Investment and Development Bank.
40. The Council of Ministers studied and discussed the annual report of the Acting Managing Director and took note of it.

ENHANCEMENT OF THE FINANCIAL RESOURCES OF THE ECOWAS
FUND**

Deputy Executive Secretary, Political and Military Affairs

Mr. Cheikh O. DIARRA (MALI)

Deputy Executive Secretary, Administration and Finance

Mr. Seybou GATI (NIGER)

Item 7 (iii): Report of the Ad Hoc Ministerial Committee on Construction of Headquarters of Community Institutions

45. The report presented by the Chairman of the Committee indicates that 98% of the ECOWAS Executive Secretariat staff quarters in Abuja have been completed. However, construction works have been suspended due mainly to the non-provision of services on the site and the semi-collective facilities to be provided by the Nigerian Government. Besides, the Committee observed that there were a number of lapses in the project design and underscored the need for additional works in order to make the site habitable.
46. Council stressed that it was of the utmost importance that both the first set of additional works identified by the Executive Secretariat, which is to be executed at the cost of UA 1 027 266.84, and the second set of additional works, which were added by the ad hoc ministerial Committee, and which are estimated to cost \$2 524 971.59. The total amount of funding to be sought therefore comes to US\$3 552 238.43. This amount cannot be raised through contributions from Member States in view of the fact that most of them are already in arrears of contribution to the budgets of the Secretariat.
47. Similarly, the ECOWAS Fund cannot be requested to provide the funds because of the restructuring currently going on in that institution.
48. Consequently, Council recommended that the Authority of Heads of State and Government should make a special request to the Federal Government of Nigeria to consider covering the cost of these additional works or to grant another loan of US\$ 3,552,238.43 to Member States for the additional works.

Item 7 (iv): Status Report on the Harmonisation of ECOWAS and UEMOA Programmes

49. This item having already been discussed in paragraph 21(iii), Council took note of the memorandum presented by the Executive Secretariat.

52. The Chairman of the Committee of Governors of Central Banks informed Council that in the absence of necessary data, it had not been possible to calculate the exact amount owed as internal and external arrears, and real exchange rate stability, respectively.

53. In order to accelerate the implementation of the Monetary Cooperation Programme, the Committee of Governors of Central Banks recommended that Member States should, among other things, liberalise their current and capital accounts. They should also convey the composition of their National

Coordination Committees to WAMA and ECOWAS Executive Secretariat before the end of 2000. The Governors further recommended that an ECOWAS Exchange Rate Mechanism should be adopted, which would allow their exchange rate to fluctuate within the band of plus or minus 5%.

54. With regard to the Second ECOWAS Monetary Zone expected to take off in 2003, the Committee of Governors stressed the need for synergy between the unit and the UEMOA Monetary Zone. To this end, the Committee of Governors requested the ECOWAS Executive Secretariat, WAMA, BCEAO and UEMOA to work closely towards harmonising their programmes.
55. Council adopted the recommendations of the Committee of Governors on the ECOWAS Monetary Programme and requested WAMA and the ECOWAS Executive Secretariat to update the macro-economic data that had been used to evaluate the convergence criteria in the report of the Committee of Governors and the annual report of the Executive Secretary. Council also stressed the need to expedite action to complete the studies on the harmonisation of the legal and statistical framework of public finance, national accounts, and consumer prices, with a view to facilitating comparability of the data used in the evaluation of the criteria.

ECOWAS Travellers Cheques

56. The Chairman of the Committee of Governors informed Council that since they were put into circulation, the ECOWAS travellers cheques have not been performing satisfactorily, due to problems such as the low volume of the cheques in circulation, insufficient awareness on the part of economic operators and the public, and difficulties related to payment and settlement. It was noted that as at the end of October 2000, only 2.3 million WAUA worth of travellers cheques had been sold, cashed and settled.
57. In order to make the cheques fully operational, the Committee of Governors requested Member States to renew their commitment to the use of this important regional payment instrument. The Committee of Governors also recommended

that a ceiling be fixed for the amount that could be bought so as to limit speculation. WAMA was also requested to carry out a study on the possibility of transferring the management of the travellers cheques to the private sector.

61. Council also approved the establishment of two working groups for each zone:

- one working group for technical aspects;
- one working group for institutional aspects.

62. In addition, Council approved in principle the appointment of a chairman for the Steering Committee, and a chairman for the implementation committee in each zone, on a rotational basis for a period of one year. It also approved the appointment of group leaders as follows:

Zone A: Côte d'Ivoire for technical aspects
Nigeria for institutional aspects.

Zone B: Guinea for technical aspects
Senegal for institutional aspects.

- 63 Council recommended that a special energy programme be designed for Cape Verde since this country cannot be covered in the interconnection of electricity grids envisaged by ECOWAS on account of its geographical location.
64. Council further recommended that, in future, the sectoral ministers should set out the economic and financial implications of any decisions they take at their meetings.
65. Council expressed its gratitude to the World Bank Group and USAID for their assistance to the ECOWAS Executive Secretariat and Member States towards the implementation of the Community energy programme.
