## **II. OPENING SESSION**

### **• Address by the President of the ECOWAS Commission**

5. In his welcome address, the President of the Commission, H.E. James Victor Gbeho, specially welcomed H.E. Ambassador Olugbenga

Ayodele Ashiru, MFR, the Hon Minister of Foreign Affairs of the Federal Republic of Nigeria and current Chairman of the Council of ministers who was attending his first meeting of the Council and congratulated him on his appointment. He also commended Members of the Council for their demonstrated commitment to the Community's objectives through their regular attendance and active participation in the deliberations of Council, despite their very busy schedules.

6. He noted that the current Session of the Council was being held against the backdrop of several political and security developments in the ECOWAS region such as the resolution of the crisis in Côte d'Ivoire, the restoration of constitutional order and legality in Guinea and Niger, the successful holding of Parliamentary elections in Cape Verde, the Presidential elections in Benin and the Parliamentary and Presidential elections in the Federal Republic of Nigeria. In all of these instances, he said, ECOWAS played and continued to play its role in ensuring that the region was on course in its drive to consolidate democracy and create the right conditions for greater regional integration.

7. He concluded by stating that the vast experience of the members of the Council and their commitment to ECOWAS and the regional integration process, would be needed in confronting the tasks before them.

#### **Address by the Chairman of the Council of Ministers**

8. In his opening address, the Chairman of the Council, H.E Ambassador Olugbenga Ayodele Ashiru (MFR), welcomed members of the Council to the session and particularly thanked his Muslim colleagues for enduring the physical and spiritual demands of fasting during the holy month of Ramadan in order to attend the meeting.

9. He acknowledged the significant progress recorded by the region within the last year in the consolidation of peace, political stability and democratic governance, with the successful conduct of elections in Benin, Guinea and Nigeria, and the restoration of democratic governance in Niger and Côte d'Ivoire. He expressed confidence that the region will continue along this path of full democratic governance by ensuring the sustainability of democracy, peace and political stability, which are the necessary prerequisites for economic development.

10. He however, observed with regret that in the area of economic integration, there were still gaps in the implementation of the ECOWAS Protocol on Free Movement of Persons, Goods and Services and the Right of Residence and Establishment. Describing the instrument as a key

element in the regional integration project, he noted that this Protocol remained to be fully implemented after thirty-two years. He pointed out that the success of ECOWAS Agricultural, Trade and Economic Development programmes was very much dependent on the full implementation of the Protocol.

11. The Minister also drew attention to the apparent financial indiscipline in the Community Institutions occasioned by the continuous non-implementation of the 60:40 ratio stipulated by the ECOWAS Authority of Heads of State and Government for budgetary expenditure for programmes vis-a-vis administrative costs. As a result, he observed, ECOWAS development partners are losing confidence to support ECOWAS integration efforts.

12. He concluded by reiterating the commitment of H.E. Dr. Goodluck Ebele Jonathan GCFR, President of the Federal Republic of Nigeria and current Chairman of the Authority, to the sustenance of the ECOWAS organization and the principles of the rule of law and democratic governance in the sub-region.

## **V. OUTCOME OF DELIBERATIONS**

### **Item 3: Presentation and Consideration of the 2011 Interim Report of the President of the ECOWAS Commission (Summary Report)**

17. The President of the ECOWAS Commission, His Excellency James Victor GBEHO presented the 2011 Interim Report. In his presentation, he

made a summary of the global and regional development prospects for 2011 as well as the status of implementation of the Community's work programme.

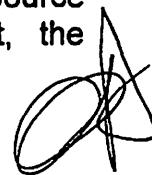

18. The presentation highlighted that, according to the latest IMF estimates, the global economy will grow by 4.5% in 2011 and that economic growth in the West Africa region will reach 6.4% in 2011 compared to 5% in 2010 as a result of the global economic recovery. This rate is still below the minimum 7% target rate for the region to achieve the MDGs and Member States are therefore urged to improve their internal resource mobilization strategies, increase investments in the social sectors and ensure appropriate management of current expenditures.

19. Concerning implementation of the Community's 2011 work programme, the President presented the progress achieved in all programmes relating to all sectors. He observed that significant progress has been achieved during the first Semester and stated that efforts will be continued to ensure adequate implementation of the projects identified under the 2011 work programme.

20. Accordingly, with regard to Macroeconomic Policy, the presentation highlighted the continued coordination of the economic and financial policies, implementation of the roadmap actions relating to the ECOWAS single currency as well as surveillance of the economic performance of the countries through the multilateral surveillance mechanism. Implementation of the regional poverty reduction strategy also continued during the Semester and measures were taken to ensure its ownership by Member States and all stakeholders concerned.

21. Concerning the EPA, the President reported that the negotiations at the level of the experts should continue with a view to ensuring that the region's development objectives are taken into account, while in the area of Trade Liberalization, it should be noted, among others, that a website was created for the Trade Liberalization Scheme (TLS) to facilitate the flow and exchange of related information. However, obstacles were observed in implementation of the TLS and appeal was made to the concerned Member States to ensure its effective implementation. As for the ECOWAS CET, consultations are continuing for its finalization and adoption.

22. In the area of Industries and Mines, the President reported that ECOWAS has validated the priority programmes of the West African Common Industrial Policy as well as the ECOWAS Mineral Resource Development Policy, while in connection with Free Movement, the

President reported that sensitization and training activities have been undertaken for the stakeholders.

23. Regarding the area of Infrastructure, actions have been undertaken especially in terms of transport and transit facilitation and implementation of telecommunications and energy infrastructure. The ECOWAS Commission continued providing support to Guinea within the framework of the emergency plan for the resolution of its energy challenges in conformity with the decision of the Authority of Heads of State and Government.

24. Under Agriculture, ECOWAS finalized the regional agricultural investment plan and the policy instruments and provided support to the countries for the elaboration of their national agricultural investment plans. The resource mobilization process for the implementation of all the plans is ongoing.

25. Concerning Humanitarian Affairs, the ECOWAS Commission prepared the draft Humanitarian Policy, Action Plan and draft Humanitarian Intervention Mechanism. The Commission provided assistance to Community citizens during emergency situations in Jos, Nigeria, Cote d'Ivoire and Libya. Efforts have also been made in the fight against drug trafficking and in the promotion of cultural and sports activities.

26. In the area of Peace and Security, there has been tangible progress in the region with the successful conduct of elections during the first quarter of 2011. ECOWAS was actively involved as part of efforts to implement the Protocol on Good Governance. In that context, the Institution participated, alongside the International Community in Cote d'Ivoire, in the restoration of democratic governance and provided support to Member States in the conduct of democratic elections. It strongly condemned the events that occurred in Guinea and Niger, as well as the terrorist attacks in Nigeria, and expressed concern over the effects of the current crisis in Libya on ECOWAS Member States.

27. After announcing the outlook for 2011, the Commission President urged all political leaders to continue supporting ECOWAS programmes, with a view to establishing a regional economic area that is credible, viable and conducive to regional integration.

28. Council commended the President of the Commission on the quality of his report. It however requested the Commission to review the format of the report with a view to bringing to the fore the progress accomplished in relation to the objectives assigned by the Commission. Council subsequently adopted the report.

**Item 4: Status of Tasks Assigned from the 65<sup>th</sup> Ordinary Session of the ECOWAS Council of Ministers**

29. After presentation by the Commission on the four tasks given to the Commission from the 65<sup>th</sup> Council of Ministers, it was found that while some tasks were addressed, others were still outstanding in particular the task of convening an Ad Hoc Ministerial Committee of Council to study the recommendations on causes of low budget absorption.

30. Council decided that all the tasks should be completed together and represented at the next Council of Ministers meeting.

**Item 5: Presentation and Consideration of the Financial Controller's 2010 Annual Report**

31. Council noted the lack of consensus on the appointment of an acting Financial Controller and on who should present the 2010 Final Report of the Financial Controller.

32. Furthermore Council decided that, in consultation with the President of the Commission, the Chairman should appoint an interim Financial Controller from amongst the officials of that office to act in that position until the end of the year. It is understood that, at the end of that period, the Financial Controller would present a report prior to the appointment of a substantive Financial Controller.

**Item 6: Presentation and Consideration of the Reports on the Audit of Recruitment, Memo on the Staff Needs of the Commission and Lifting of the Recruitment Freeze**

33. The ECOWAS Commission presented the Report of the two audits on Recruitment and the Memorandum on Staff Needs and the lifting of the freeze on recruitment.

34. In their presentation, the Commission recalled the first phase of recruitment in the ECOWAS Commission in 2007/2008 which began with the recruitment of Directors and P5 Managerial Officers. The Commission also recalled the subsequent decision of the 61<sup>st</sup> Council of Ministers to conduct an audit of the recruitment process in order to evaluate its effectiveness, and to freeze the recruitment of staff into permanent positions pending the outcome of the audit exercise.

35. The Commission then went on to highlight the efforts made towards the implementation of the recommendations of the Audit Reports on recruitment as follows:

- The Development of a Recruitment Manual
- The Conduct of a Job Evaluation Exercise
- The setting up of an E-Recruitment portal
- Equitable geographical distribution and gender balance

36. The Commission also highlighted the effects of the freeze on recruitment and highlighted the reasons for lifting such freeze as follows:

- The problem of low budget absorption capacity as well as the low rate of programme implementation of the ECOWAS Commission, due to staff shortages in several Departments.
- The top-heavy manning/staffing structure of the Commission with some Directorates having only a Director and one P5 Managerial Staff, and no programme staff below that level.
- The repeated observations in the Financial Controller's reports, the Budget Sessions of the Administration and Finance Committee (AFC) meetings of October 2009 and 2010 which were replete with complaints from Commissioners, particularly those of the technical departments on the problem of inadequate staffing as one explanation for low programme execution;
- The ECOWAS/Donor Partners Conference held in June 2011, where the partners severally expressed concern over the long-drawn effect of the freeze on recruitment and its negative impact on ECOWAS Programmes which had led to the following:
  - Low budget absorption;
  - Low programme implementation;
  - Loss of credibility of ECOWAS Institutions;
  - Inadequate absorption of external funds;
  - Unease the donor partners, particularly the European Union, who had written to the President of the Commission and to the Chairman of the Authority, expressing grave concern about the recruitment freeze and expressing the possibility of suspending their support to ECOWAS.
  - The Pool Fund Partners who have already suspended any new additional funding.

37. In their conclusion and prayer, the Commission invited the 66<sup>th</sup> Session of Council to consider the issues highlighted above and approve the lifting of the freeze on staff recruitment, to enable the recruitment of staff critical to the implementation of programmes. This would not only enhance programme and budget absorption but also address the concerns of the Commission's donor partners.

38. Council took note of the reports presented by the Commission. After the presentation, Council decided that it was rather time to review and reposition the ECOWAS Institutions, after the first tenure of the Commission, in terms of financial management, recruitment, discipline, engagement of consultants and other important procedures. This is to assess the institution's strength and stem the tide of concerns from Member States, staff and other stakeholders in the ECOWAS enterprise.

39. Council mandated the Chairman, in consultation with the President of the Commission, to contract an independent reputable firm of management consultants, preferably from outside Africa to give urgent effect to this decision to reposition our Community institutions in line with international best practices. This is to be done before the end of 2011. Council decided to maintain the freeze on recruitment until the independent Audit firm presents its conclusions and recommendations.

**Item 7: Presentation and Consideration of the Reports of the 18<sup>th</sup>, 19<sup>th</sup> and 20<sup>th</sup> Meeting of the Audit Committee**

40. The Chairman of the Audit Committee presented the reports of its 18<sup>th</sup>, 19<sup>th</sup> and 20<sup>th</sup> meetings. Council took note of the report and the recommendations contained therein and noted that the recommendations further justified the engagement of a management consultancy firm for the review of the administrative, human resources, consultancy, financial management and other policies of the Community as decided under Item 6 above. Only the 2010 concluded financial statements from the report were adopted.

**Item 8: Presentation and Consideration of the Report of the Ninth Meeting of the Administration and Finance Committee**

41. The final report of the 9<sup>th</sup> meeting of the Administration and Finance Committee was presented by the Chairman of the Committee, Ambassador A.A. Abass. The report dealt mainly with the following issues:

- Implementation status of tasks assigned;

- Supplementary Budget to deal with the Humanitarian situation in Côte d'Ivoire, Liberia, Guinea, Ghana and Mali;
- GIABA Strategic Plan 2011-2014 and GIABA Organogram;
- Sitting allowance for GIABA's Ministerial Committee members;
- Creation of the position of Director in the office of the Financial Controller;
- Establishment of ECOWAS Common Investment Market Councils at Regional and National levels;
- Modalities for the establishment of the ECOWAS Pension Scheme;
- 2010 Final Report of the Financial Controller;
- Briefing on Administrative issues;
- Report of the first ECOWAS SME Summit; and
- Report of the first ECOWAS Diaspora Forum.

42. Council adopted the report and the recommendations contained therein.

**Item 9: Presentation and Consideration of the Report of the Ad hoc Ministerial Committee on Construction of Headquarters of Community Institutions**

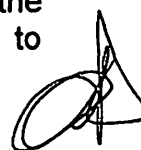

43. The report was presented by H. E. Ambassador Abbas, Chairman of the meeting and centred on the following projects:

- ECOWAS Logistics depot located at Lungi in Sierra Leone;
- Construction of the headquarters of the ECOWAS Stand-by Force;
- Katampe Staff Housing Estate – status report

44. After due deliberations, Council directed the Commission to ensure that the extant Community regulations for contract awards should be adhered to in all future contracting of jobs on this nature.

45. Council thereafter adopted the report and decided as follows:

- The appointment of the consultant for the development of the ECOWAS Logistics Depot was ratified as an exceptional case, considering the huge sums of money already committed by the Government of Sierra Leone and the Commission and the time lost in order to move the project forward. However, all subsequent steps must comply with due process while the present ratification should not be cited as precedent in the future.
- On the Katampe Staff Housing Estate, Council endorsed the recommendation of the Ad-Hoc Ministerial Committee which is to

await the outcome of the discussion between ECOWAS and the Federal Government of Nigeria.

**Item 10: Presentation of a Report from Burkina Faso on Free Movement of Persons, Goods, Right of Residence and Establishment in ECOWAS Area**

46. The Burkina Faso delegation reported that the Protocol on Free Movement adopted in 1979 by the Community was a wise decision by our Heads of State for it had helped bring people together. The ECOWAS Passport, Vaccination Card and visa waiver for ECOWAS nationals are important instruments that have been of great service to West African citizens.

47. However, some difficulties continue to be encountered in the actual implementation of the Protocol on Free Movement. Burkina Faso took the initiative to establish – by ministerial decree – a national Committee on the Free Movement of Persons and Goods, Right of Residence and Establishment, and to adopt a national monitoring strategy.

48. Burkina Faso is also taking out measures to roll out the ECOWAS passport, and hopes this initiative would be extended to all Community countries, a monitoring mechanism set up, the necessary funds provided, and a Head of State appointed to lead the initiative in the entire community.

49. Following extensive discussions, council noted the report and observed that similar initiatives already exist in many member states.

Recommendations were made for the expeditious implementation by the Commission of the Action Plan and application of the commitments and recommendations made by the Member States to allocate the necessary resources to the sector.

55. Considering the relevance of the Strategic Plan proposed and its consonance with national and regional priorities, the Member States were called upon to take up their responsibilities.

**Item 16: Presentation of the Report of the Ministers in charge of Security Questions in Member States held in Abuja (Nigeria), 6<sup>th</sup> November 2009**

69. The Council of Ministers considered the following documents:

- the report of the constitutive assembly of the Committee of Security Service Chiefs at the end of the meeting of ECOWAS Member States' Police and Gendarmerie Chiefs, held in Dakar, Senegal on 19 and 20 May 2009, taking into account the formation of the Committee of Security Service Chiefs (CSSC), and the code of conduct of the armed forces and security services in West Africa.

weapons, terrorism by supporting Interpol, capacity building, and services.

- The report of the 8<sup>th</sup> meeting of the Forum of Ministers responsible for Security was held in Abuja on 30 July 2011. Specific provisions were considered.

70. After consideration, the Council of Ministers adopted the aforementioned reports, as well as the created specific bodies and code of conduct. The adoption confirms the retention of the Regional Interpol Bureau in Abidjan, support for the efforts of Interpol to the European Union for the creation of the West Africa Information System, implementation of the Protocol of the Office for information and criminal investigations, training and capacity building, synergy of action between GIABA and the Community Court of Justice and the use of new technologies. In this regard, the Division in charge of Regional Security at the ECOWAS Commission should be reinforced. The principles of the code of conduct reaffirm the sovereignty of national integrity, supremacy of civilian authority, respect for human rights and humanitarian law as well as civilian-military relations.

71. Furthermore following the submissions made by the President of the Commission and the Minister responsible for Police Affairs of the Federal Republic of Nigeria on matters relating to this issue as well as the concerns over the security situation in the region, Council decided to recommend to the next session of the ECOWAS Authority of Heads of State and Government the abolition of resident permits for all ECOWAS citizens in Member States and the adoption of multi-country single visa (Schengen type) for third-country nationals travelling within Member States of the region. Council also recommended that serious attention be paid to cross-border security, proliferation of small arms light weapons and terrorism by supporting the Interpol capacity building and services.

#### **Item 17: Presentation on the launch of the ECOMAC Database**

72. In its presentation to the Council of Ministers on the launch of the ECOMAC Database, the Commission indicated that the ECOMAC Database is the tool for implementing the ECOWAS multilateral surveillance mechanism. It is also in line with the objectives of the Authority of Heads of State and Government on the implementation of macro-economic convergence within the context of the ECOWAS monetary cooperation programme.

73. It also pointed out that the ECOMAC database is aimed at ensuring the accuracy and comparability of macro-economic data for the attainment of the convergence of economies at national level towards the launch of a credible Monetary Union in our region.

74. The Council of Ministers adopted the communication made after the presentation.

**Item 18: Presentation and Consideration of the Memorandum Relating to the request by Member States for ECOWAS Endorsement of Candidates to Vacant Positions in International Organisations**

75. The President of the Commission informed the Council that some Member States had submitted their candidates for positions in the African Union Commission and in the United Nations.

76. He indicated that for most positions one candidacy had been recorded, except those of the positions of the African Union Commissioner for Political Affairs and Commissioner for Social Affairs. For each of these two posts, two candidacies were recorded from more than one Member State.

77. The Chairman said that as a practice, the two countries with candidates for the same position should meet informally and negotiate in order to agree on which single country should be put forward and thereafter communicate their agreement as a matter of urgency to the President of the ECOWAS Commission. However, Council decided to give support for candidacies for positions which has recorded only one nomination.

78. The Chairman then drew members' attention to the rules of procedure for submission of candidacies.

79. In response to a concern expressed by Liberia over the publication of the AU positions, the Chairman indicated that it was not ECOWAS' responsibility to put up adverts for the AU but all requests for nomination were found on the AU website.
