

CALL FOR PROPOSAL

Regional Pilot Project on Circular Economy (RPCE). Transition to a clean energy circular economy through the optimization of energy-intensive value-chains in the high-impact sectors

The project “Regional Pilot Project on Circular Economy. Transition to a clean energy circular economy through the optimization of energy-intensive value-chains in the high-impact sectors” is a 26-month project that is being implemented in 3 different countries of ECOWAS region, being them, **Benin, Nigeria and Senegal**. Through this project, ECREEE and AECID intend to enhance livelihood in targeted rural communities and improve the source of economy by improving energy efficiency in energy-intensive agribusiness sectors, creating employment and through the adoption of technological innovations in circular economy in value-chains where women and young are well-represented.

The general objective of the project is to “*Enhance livelihood in targeted communities and improve the source of economy in rural communities*”.

The ECOWAS Centre for Renewable Energy and Energy Efficiency (ECREEE), under the auspices of the ECOWAS Commission is inviting eligible project developer and/or actor directly involved in the execution of Clean Energy Project from **Benin, Nigeria, and Senegal** to submit their applications to contribute to the transition to a clean energy circular economy through the optimization of energy-intensive value-chains in the high-impact sector.

Based on the above, ECREEE encourages eligible entrepreneurs in Clean Energy sector to submit applications in accordance with the requirements of the Request for Proposal (RFP) available at www.ecreee.org.

INSTRUCTIONS FOR SUBMISSION OF PROPOSALS

To be eligible for consideration, the application must be submitted at the following email address: technicalexpert@ecreee.org with copy to ikkamara@ecowas.int; sbangoura@ecowas.int; adeoliveira@ecreee.org and ombacke@ecowas.int.

The deadline for submission of proposals is October 8th, 2025, at 11:59 pm GMT-1 Cabo Verde time.
